Consumer Notes:

Perhaps the biggest news (outside of another volumes of the Bebop DVD) this month is ADV releasing Lost Universe; this show, by the creators of Slayers, is sure to be a hit. For the uninitiated, it's *very* like Slayers in style and content ... only this time it's in space. CPM is beginning the Shamanic Princess series (which also should do well). The second volume of Imma Youjo is released, which we fully expect to be popular with the adult anime crowd, as well as VirtuaCall. There's also more Kimba shipping... there's something for everyone this month!

One final note: although CPM / USMC has placed their subtitled VHS line on moratorium until late fall at least, you will STILL be able to get the entire catalog through us. For more information, contact your account rep or EMail us.

JEFF'S PICK(S) OF THE MONTH

Once again, I think I have to go with the Bebop DVD coming out this month ... it's really that good! Honorable mention goes to Imma Youjo 2 (maybe the best of the set) and the Please Save My Earth DVD (which is really cool!).
